

Samsung Career Experience JD

Position Summary

We are actively recruiting for internships and externships for Samsung Electronics America public affairs, which supports various business priorities. This position is located in our Washington, DC office.

At Samsung Electronics America, we provide our interns with real-world hands-on knowledge alongside application. Experience will transcend beyond classrooms, and you will see how processes and business strategies come into life.

Life at Samsung

We're nimble, relentless and always making the next great innovation. Join a diverse and driven league of imaginations impacting the globe. Our dynamic opportunities help you expand your expertise and experience through rich exposure to leadership, opportunities to make an impact, and empowerment to bring new ideas to life. In stewardship of our legacy, we give back at every opportunity to strengthen the communities where we live and work and make a better world for all.

At Samsung, we believe that innovation and growth are driven by an inclusive culture and a diverse workforce. We aim to create a global team where everyone belongs and has equal opportunities, inspiring our talent to be their true selves. Together, we are building a better tomorrow for our customers, partners, and communities.

Public Affairs Division

Our commitment to social betterment is the guiding force behind our Public/Government Affairs team which focuses on opportunities to engage and support government customers, policy makers and technology leaders. Our sustainability and global and U.S. government relations teams ensure that everything we do moves the world forward.

We look forward to your application!
